WELCOME TO

SAFETY MATTERS TO US

From 20+ years of hard work, innovation, and investments in people, automation, and technology, Radians has evolved into a global top-tier manufacturer of high performance Personal Protective Equipment (PPE). This means we have the experience, products, and resources to help you easily create a solutions-oriented safety program.

WHAT WE DO MATTERS. We provide the industrial, construction, and safety markets with a full line of PPE that protects workers from everyday risks and injuries at the jobsite.

Exceeding the standards while satisfying the end user's style, comfort, and price demands matters to us. That's why we offer value, performance, and premium product lines, like DeWALT® and Crossfire®. We are passionate about helping you build a safety program that works for the worker and you.

YOU MATTER TO US. We're big on nurturing our relationships and partnerships because we want you to be 100% pleased when you partner with us. We are continuously expanding and upgrading our product lines, capabilities, processes, and knowledge because we want to be the preferred supplier that helps you excel in safety markets while improving the lives of workers everywhere.

OUR PLEDGE TO YOU

Radians is constantly challenging ourselves to improve and break new ground to take better care of our customers, partners, employees, and end-users. We want to do the right things at the right time so that safety, success, and growth are achieved by all. Here are seven reasons why partnering with Radians will help make your workday easier and better.

- 1 You Can Trust the Testing**
- 2 You Can Easily Create a Solutions-Oriented Safety Program**
- 3 Our Professional Safety Team is by Your Side**
- 4 You'll Experience the Benefits of Automation and Technology**
- 5 You Have the Choice to Buy Safety Products Made in America**
- 6 You Have Quick Access to Custom Imprinting and Custom-Made Vests**
- 7 You Gain a Competitive Edge with our Customer-Friendly Policies**

RADIANS®

TESTING AND STANDARDS

PPE helps protect workers from hazards, but only if it performs like it's supposed to. Uncertified PPE can sabotage and compromise the best safety programs, often leading to injuries, fatalities, and legal complications.

You can trust Radians' products to meet or exceed all necessary regulatory standards. Our focus on product quality, testing, and certification will give you the assurance that you are using PPE that complies with the standards.

RADIANS IN-HOUSE TESTING CAPABILITIES

Radians maintains an in-house eyewear testing facility to ensure continued compliance with applicable optical and high-impact standards for eyewear. Radians also has a state-of-the-art hearing protection testing laboratory that is accredited through the National Voluntary Laboratory Accreditation Program (NVLAP Lab 500090-0.) In our lab, we can test hearing protection products to ensure they meet the ANSI S3.19 and ANSI S12.6 standards.

- **HEARING PROTECTION** All test equipment and test protocols are designed to be compliant with ANSI S3.19:1974 and tested in our dual wall acoustic chamber to reduce ambient noise below the hearing threshold.
- **HIGH VELOCITY IMPACT** High impact glasses shall be capable of resisting impact from a 6.35 mm (25 caliber) diameter steel ball traveling at a velocity of 45.7m/s. No contact with the eye of the head form is permitted as a result of impact to be compliant with ANSI Z87.1+.
- **HIGH MASS IMPACT** High impact glasses shall be capable of resisting an impact from a pointed projectile weighing 500 grams (17.6 oz) dropped from a height of 127 cm (50 inches) to be compliant with ANSI Z87.1+.
- **VO BALLISTIC PERFORMANCE** VO Ballistic glasses shall be capable of resisting impact from 0.15-inch (15 caliber) diameter steel projectile traveling at a velocity of 195m/s to be compliant with Mil-PRF-31013.
- **DROP BALL IMPACT** Basic impact eyewear lenses shall be capable of resisting impact from a 25.4 mm (1 inch) diameter steel ball dropped from a height of 127 cm (50 inches) to be compliant with ANSI Z87.1+.
- **TESTING HEAD FORM** The EN 168 European head form is used for Prismatic Power, Drop ball Impact, Lateral Protection, High Mass Impact, High Velocity Impact and Penetration.

THIRD-PARTY

Independent labs test PPE in strenuous conditions often more challenging than those in the workplace. Radians uses third-party independent labs for all our safety glasses, high-visibility materials, fire retardant materials, EU products, and for our cut, abrasion, puncture, and impact-resistant gloves.

QUALITY ASSURANCE

The International Organization for Standardization (ISO) 9001:2015 specifies requirements for a quality management system where an organization needs to demonstrate its ability to consistently provide product that meets customer and applicable statutory and regulatory requirements.

REGULATORY BODIES

CUSTOM IMPRINTING AND EMBROIDERY

CUSTOM MADE EASY QUICK TURNAROUND

Branding PPE with your logo, company name, or safety message not only elevates and differentiates your brand, but it offers these value-added benefits too:

- **YOUR PPE** protects people and advertises your business and brands
- **YOUR STAFF** are easily recognizable
- **YOUR COMPANY** exudes professionalism and a greater sense of corporate identity
- **YOUR EMPLOYEES** feel part of a team as branded workwear increases loyalty and unity

IN-HOUSE SERVICES FOR DEPENDABLE AND CONSISTENT RESULTS

Radians doesn't outsource our custom imprinting or embroidery services like some PPE manufacturers do. Everything is done in-house at our locations in TN, NC, and NV. That means we can easily monitor and control your job from start to finish, providing you with high-quality results and one of the fastest turnaround times in the industry.

We believe screen printing is a science. We use high-end inks and thread, technologically advanced equipment, experienced machine operators and screen printers. Plus, our in-house marketing team and graphic designers will work with you to re-create your artwork, so it turns out perfect.

CUSTOMIZATION

YOU DESIGN IT - WE BUILD IT

- Online Software to Create your Vest or T-Shirt
- Quick Turnaround Times - Made in USA
- Low Minimums
- Affordable Costs

CREATING YOUR CUSTOM VEST OR T-SHIRT IS QUICK & EASY!

- Choose Your Style of Vest or T-shirt
- Pick a Color Combination
- Find the Right Fabric for Your Needs
- Select the Style of Reflective Tape
- Choose Your Pockets and Accessories
- Place Your Custom Imprinting Message

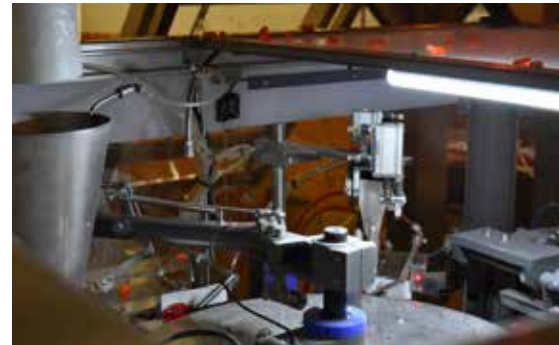

MADE IN THE USA

MADE IN THE USA MANUFACTURING

The last couple of years have driven home the importance of manufacturing safety products in the USA. Radians has known this for over a decade now, so we have been consistently expanding our capabilities in this area. You have our solemn pledge that we will continue to move forward in this critical area by manufacturing more products in America.

Throughout this catalog, when you see this logo you can know that the corresponding product is **MADE IN THE USA**

WAREHOUSE AUTOMATION

Because the customer experience and journey are important to Radians, we will continue to make significant capital investments in automation. These advances in automation:

- **IMPROVE** the speed and accuracy of order fulfillment
- **EXPEDITE** picking and shipping process
- **PROVIDE** real-time inventory status
- **ENHANCE** our ability to expedite same-day orders
- **REDUCE** errors in shortages and overages

RADIANS TEAM

TEAM OF EXCELLENCE *The Radians Professional Team Provides Support, Knowledge, and Added Value*

HIGH PERFORMANCE, CUSTOMER-FIRST SALES TEAM

The Radians sales team consists of some of the best trained and most reliable safety professionals in the industry, including our:

- *Inside Sales Reps*
- *Regional Sales Managers*
- *National Account Representatives*
- *Industry-leading Manufacturers Reps*

Our sales team will provide the safety solutions that make the most sense for your company and job application. They can also help you navigate the training, safety assessments and marketing programs that Radians offers.

DEDICATED CUSTOMER SERVICE AGENTS WHO CARE ABOUT YOUR SATISFACTION . . . AND YOUR EXPECTATIONS

Radians wants to keep our customers for life, so we provide our customer service team with the training, tools, and technology they need to take good care of you. Our CSA team can help you with:

- *Reliable Order Entry and Resolution*
- *Inventory Questions*
- *Product Specifications and Features*
- *Samples, Pricing, and Quotes*

PRODUCT DEVELOPMENT TEAM BRINGING MORE VALUE TO YOU

The Radians Product Team continuously monitors safety industry trends and consumer needs to bring innovative safety products to market, providing more value to our customers. Our Product team works closely with sales, marketing, and our customers as they oversee the technical development of Radians' new products and improvements of existing products.

HARD-WORKING OPERATIONS TEAM

Operations is the lifeblood of Radians from manufacturing to assembly to picking and shipping. Our dedicated operations personnel are equipped with the automation, technology, and technical support to move our safety products from our facilities to you as quickly as possible. From scheduling, production and quality control, our ops team hustles for you every day of the week around the clock.

MARKETING AND RESOURCES

MARKETING—TOOLS FOR GROWTH AND SUCCESS

When you partner with Radians, you'll benefit from the experience and creativity of our in-house marketing team whose numerous programs give our customers a competitive advantage.

- Custom Flyer Program
- Early Buy Promotions
- Digital and Print Collateral
- Email Campaigns
- New Product Launches
- Product Videos
- Social Media Campaigns
- Product Packaging

MOBILE-FRIENDLY WEBSITE

Our mobile-friendly website is your up-to-date resource for product information, images, spec sheets, sales sheets, catalog downloads, educational resources, and more.

- Easily Order Samples and Request Quotes
- New Product Information
- Interactive Knowledge Base Pages
- Powerful Search Engine
- Product Videos and Sales Sheets
- Access RadLink, our 24/7 Distributor Account

TRAINING AND EDUCATION

Because of the standards and government regulations surrounding PPE, safety training and education are crucial. Radians' library of training and educational tools will increase your knowledge and make the workplace safer. We offer in-person training at our state-of-the-art training center in Memphis, TN, and offer virtual meetings and webinars via our in-house video studio.

Tools include:

- Fast Facts
- Webinars
- In-Person and Virtual Training Events
- Product Training Videos
- Knowledge Base Website Pages
- An Experienced Team of Product Managers & Sales Professionals
- Hazard Assessments and Surveys

RADLINK

The Radians brand is synonymous with market leadership, quality and reliability, and is sold exclusively through authorized distributors.

- 24/7 Online Ordering

Radians has aggressively expanded our line of hand protection to provide gloves that keep workers' hands protected from common workplace hazards. The National Safety Council estimates that the direct cost of a laceration is \$15,000-\$25,000 including care and missing six days of work, which is the average time off for a hand injury.

You can look to us for performance gloves that protect your workers' hands while not compromising comfort and dexterity. We offer a variety of materials and coatings for various job applications, including nitrile, latex, polyurethane coatings, and cut resistant fibers.

MERCHANDISING

GLOVE HANG TAG PROGRAM

FOR FAST, EASY, AND PROFESSIONAL RETAIL DISPLAY OF RADIANS GLOVES AT INDUSTRIAL STOREFRONTS.

- **FAST** Five business day turnaround.
- **EASY** You can place an order for a case of “tagged” gloves just as you would place an order for a case of “untagged” gloves.
- **ECONOMICAL** Competitive pricing.

MINIMUM ORDER REQUIREMENT IS ONE CASE

The minimum order is a case and the gloves in that case can include bulk packs of a dozen in multiple sizes. Keep in mind some of our cases include 72 gloves and some cases include 120 gloves. After a case is ordered, you may order more gloves by the dozen. Many of our competitors will only sell by the case, but Radians is more flexible allowing for dozen bulk pack purchases after the minimum case requirement has been satisfied.

GLOVE VENDING PROGRAM

Because PPE vending machines can increase worker safety and workplace efficiencies, Radians has expanded our hand protection line to include glove packaging for vending machines.

PROGRAM IS EASY TO USE AND EASY TO INSTALL

We offer three vending machine formats that take into consideration the size and features of the glove. After all, not all gloves can be rubber-banded, so we have three options:

- **GLOVE-BANDED** (Rubber Banded): For customers not wanting plastic.
- **GLOVE-FOLDED** (Tri-Folded to fit in a smaller bag): For cut and non-cut coated gloves.
- **GLOVE-BAGGED** (Bagged Flat): For larger, bulkier gloves.

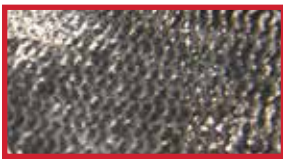

COATED GLOVES

To address specific work-related hand protection issues, Radians uses several different types of palm coatings: smooth nitrile, foam nitrile, sandy foam nitrile, foam latex, sandy foam latex, crinkle latex, PU (polyurethane), and FDG™. Palm coatings allow for better gripping capabilities and tactile sensation without losing dexterity.

COATING DESCRIPTIONS:

SMOOTH NITRILE

- Excellent Abrasion Resistance
- Synthetic Rubber, Latex Free
- Excellent Puncture Resistance
- Tactile Sensitivity and Flexible Grip

FOAM LATEX

- Micro Texture
- Better Breathability and Comfort
- Excellent Flexibility
- Resistant to Tears and Cuts

FOAM NITRILE

- Lightweight Micro Texture
- Good Grip in Wet or Dry Applications
- Breathable, Flexible and Porous
- Excellent Abrasion Resistance

SANDY FOAM LATEX

- Micro-Roughened Texture
- Better Breathability and Comfort
- Excellent Flexibility
- Resistant to Tears and Cuts

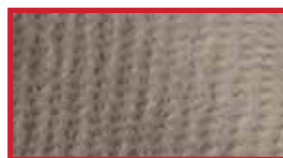

SANDY FOAM NITRILE

- Micro-Roughened Texture
- Excellent Grip in Wet or Dry Applications
- Breathable, Flexible and Porous
- Excellent Abrasion Resistance

CRINKLE LATEX

- Rough Texture for Better Grip and Abrasion
- Better Breathability and Comfort
- Excellent Flexibility
- Resistant to Tears and Cuts

PU (POLYURETHANE)

- Semi-Smooth Texture
- Extremely Flexible
- Superior Dexterity
- Not as Durable as Nitrile or Latex

- Proprietary, Engineered Coating by Radians
- Flexible and Durable
- Provides Better Grip than Nitrile

FDG: WHY IS IT IMPORTANT?

When dealing with Foam, Micro Foam or Sandy Foam Nitrile to get the best grip you must give up some abrasion resistance and to get the best abrasion resistance you have to give up some grip.

With FDG you no longer must give up any of these. You get the **BEST OF BOTH WORLDS.**

GRIP

Good: Micro Foam Nitrile
Better: Foam Nitrile
Best: Sandy Foam Nitrile
Exceptional: **FDG™**

ABRASION

Good: Sandy Foam Nitrile
Better: Foam Nitrile
Best: Micro Foam Nitrile
Exceptional: **FDG™**

When “longer lasting, higher abrasion, and better grip” matter to you, Radians delivers with its proprietary and engineered Flexible Durable Grip Coating.

LEATHER GLOVES

LEATHER TANNING/GRADES OF LEATHER

Despite mechanization, leather tanning consists of a complex series of treatments that require considerable time and energy. The purpose of the tanning process is to alter the protein structure of the skin to increase its durability, texture, and appearance. All natural hides are sorted at the tannery and are ranked by quality using a very basic system: A, B, C, D or Economy

- **A GRADE LEATHER:** Has zero blemishes or scar tissue damage
- **B GRADE LEATHER:** May have slight blemishes
- **C GRADE LEATHER:** Visible blemishes and heavy scar tissue damage
- **D OR ECONOMY GRADE LEATHER:** Heavy blemishes, heavy scar tissue, very course or stiff, and normally gray in color

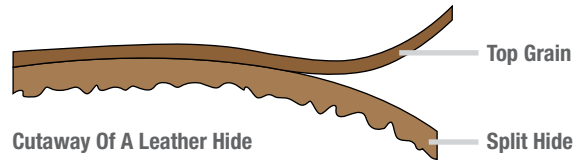

GRAIN VS SPLIT LEATHER

GRAIN LEATHER comes from the top portion of the hide where the hair follicles have been removed. It is smooth to the touch.

SPLIT LEATHER is created by “splitting” the grain leather away from the underside of the hide. Turning one hide into two hides allows for more gloves per square meter to be produced. Split leather is rough to the touch.

Split leather is associated with the thicker hides of larger animals like cows. Smaller animals such as goat or sheep produce top-grain leather only as their hides are not thick enough to split.

If you want longevity, then specify grain leather gloves. If you are trying to outfit or protect temporary workers for intermittent jobs, then split leather gloves offer you cost savings and the necessary hand protection.

Cutaway Of A Leather Hide

TYPES OF LEATHER

COWHIDE:

- Most common & popular type of leather used for gloves
- Moderately priced
- Durable glove with good abrasion resistance

PIGSKIN:

- Offers greatest breathability due to the porous texture of the hide
- Becomes softer with use
- Withstands moisture without becoming stiff

GOATSKIN:

- Strongest and most durable type of leather
- Excellent abrasion resistance
- Great for tasks that require dexterity

- Warmer than pigskin or goatskin
- Stiffens when it gets wet
- More heat resistant

- Dries soft and stays flexible
- Doesn't lose its shape or function when laundered

- One of the softest leathers available because of its high lanolin content

LEATHER DRIVERS

WHAT IS A LEATHER DRIVER STYLE?

The driver style is most often defined by the material compositions. If the glove is 100% leather on the palm and the backside, it is likely to be considered a driver style.

THE THREE MAJOR LEATHER GLOVE THUMB DESIGNS

The set-in thumb is sewn in as a separate piece, which improves dexterity. Ideal for applications where there is extreme wear in the thumb webbing area. Most expensive option due to extensive sewing.

STRAIGHT THUMB

Least effective as it does not allow for natural thumb motion.

WING THUMB

Allows for greater flexibility and efficiency than straight thumbs.

KEYSTONE THUMB

Designed for superior movement and maximum comfort.

KAMORI SERIES LEATHER DRIVERS

RWG50 S-2XL

- White Grain Goat Skin Driver
- Aramid Lining
- TPR Overlays
- Slip-On Cuff
- Keystone Thumb

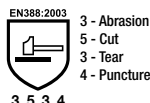

U.S. Patent No. 9,241,519

RWG52 S-2XL

- White Grain Goat Skin Driver
- Aramid Lining
- Slip-On Cuff
- Keystone Thumb

3 5 3 4

RWG51 M-2XL

- White Grain Goat Skin Driver
- TPR Overlays
- Slip-On Cuff
- Keystone Thumb

U.S. Patent No. 9,241,519

LEATHER DRIVERS

RWG4722 S-2XL

- Standard Grain Goatskin Leather Driver
- Keystone Thumb
- Shirred Wrist, Cloth Hem

RWG4810 S-XL

- Economy Top Grain Pigskin Leather Driver
- Straight Thumb
- Shirred Wrist, Cloth Hem

RWG4221HV S-2XL

- Standard Grain Cowhide Leather Driver
- Keystone Thumb
- Shirred Wrist, Cloth Hem

WHAT IS A LEATHER PALM STYLE?

Both the shape and the materials used in the glove help to identify it as a leather palm. If the glove is 100% leather on the palm but the top of hand is fabric, it is likely a "leather palm." Safety cuffs are also common features on leather palm gloves.

NOTE: There have been advances in glove design recently that combine features and benefits from drivers, leather palms, and performance gloves. This category is recognized as a hybrid style. To determine a leather palm from a hybrid, look for a "rubberized or starched safety cuff." If the glove has a rubberized or starched safety cuff, then it is a leather palm.

LEATHER PALM

FORM FACTOR

90% of leather palms are made from split cowhide. Wearing split cowhide leather palm gloves is popular at large jobsites that require employees to wear hand protection but have limited budgets. It is a general purpose, low cost glove used in applications that don't require good dexterity. Pigskin has a greater resistance to water and abrasion and is used mostly in cold weather climates.

CUFF STYLES

STARCHED

Two layers of fabric laminated & stiffened with starch

DUCK CUFF

Launderable single ply cotton material

RUBBERIZED

Bonding of cuff layers with rubber cement. Standard safety cuff 2.5"

GAUNTLET

4 – 5" longer cuff to provide extra protection up the wrist & arm

KNIT

Elastic around wrist to keep dust & debris from entering glove

FEATURED LEATHER PALMS

RWG3700 M – XL

- Premium Grain Goatskin Leather Palm
- Gunn Cut w/Wing Thumb
- Leather Knuckle Strap
- Rubberized Safety Cuff

RWG3103 S – 2XL

- Economy Shoulder Gray Split Cowhide Leather Palm
- Gunn Cut w/Wing Thumb
- Leather Knuckle Strap
- Rubberized Safety Cuff

RWG3825 L – XL

- Standard Grain Pigskin Leather Palm
- Gunn Cut w/Wing Thumb
- 150 Gram Micro Fleece Lined
- Leather Knuckle Strap
- 4" Knit Wrist

LEATHER PALM

RWG3200JP M-2XL

- Regular Shoulder Gray Split Cowhide Joint Leather Palm
- Gunn Cut w/Wing Thumb
- Leather Knuckle Strap
- Rubberized Safety Cuff

RWG3300 M-XL

- Select Shoulder Gray Split Cowhide Palm
- Gunn Cut w/Wing Thumb
- Leather Knuckle Strap
- Rubberized Safety Cuff

RWG3400WDP M-XL

- Side Split Gray Cowhide Double Palm
- Gunn Cut w/Wing Thumb
- Canvas Back
- Leather Knuckle Strap
- Aramid Thread
- Rubberized Safety Cuff

WELDING GLOVES

RWG5100 XL

- Gray Split Economy Shoulder Cow Leather
- Fleece Cotton Drill Lining
- Wing Thumb
- 14" One-Piece Back

Also Available Left Hand Only (RWG5100LH)

RWG5410 XL

- Premium Side Split Blue Cowhide Leather
- Full Sock Lining With Foam
- Reinforced Palm
- Wing Thumb
- 14" Fully Weltd Seams
- Aramid Sewn

RWG5210 XL

- Blue Regular Shoulder, Split Leather
- Full Sock Jersey Lined
- Wing Thumb, Reinforced Palm
- 14" Fully Weltd Seams
- Aramid Sewn

RWG5310 XL

- Select Split Brown Cowhide Leather
- Full Sock Lining With Foam
- Reinforced Palm
- Wing Thumb
- 14" Fully Weltd Seams
- Aramid Sewn

MIG/TIG WELDING GLOVES

RWG6210 M-2XL

- Mig-Tig Regular Grain Cowhide
- Seamless Forefinger
- Wing Thumb
- 4" Blue Regular Split Shoulder Cuff
- Aramid Sewn

RWG6310 M-2XL

- Mig-Tig Select Grain Cowhide
- Seamless Forefinger
- Wing Thumb
- 4" Brown Regular Split Shoulder Cuff
- Aramid Sewn

RWG6710 M-2XL

- Mig-Tig Select Grain Goatskin
- Seamless Forefinger
- Wing Thumb
- 4" Brown Regular Split Shoulder Cuff
- Aramid Sewn

CUT PROTECTION GLOVES

ANSI CUT LEVEL RATINGS

There are many kinds of cut hazards, and each one requires a different level of protection. Use the table below to help determine the cut level rating necessary for your work environment.

LIGHT CUT HAZARDS:

material handling, assembly, maintenance, packaging, warehouse, general purpose, construction

200 - 499 grams

LIGHT/MEDIUM CUT HAZARDS:

material handling, assembly, maintenance, packaging, warehouse, general purpose, construction, metal handling, appliance manufacturing

500 - 999 grams

LIGHT/MEDIUM CUT HAZARDS:

material handling, assembly, maintenance, packaging, warehouse, general purpose, construction, metal handling, appliance manufacturing

1000 - 1499 grams

MEDIUM CUT HAZARDS:

bottle and light glass handling, canning, dry walling, electrical, carpet installation, HVAC, paper production, automotive assembly, metal handling, metal stamping, packaging, warehouse, appliance manufacturing

1500 - 2199 grams

MEDIUM CUT HAZARDS:

bottle and light glass handling, canning, dry walling, electrical, carpet installation, HVAC, paper production, automotive assembly, metal handling, metal stamping, packaging, warehouse, appliance manufacturing

2200 - 2999 grams

MEDIUM/HEAVY CUT HAZARDS:

bottle and light glass handling, canning, dry walling, electrical, carpet installation, HVAC, paper production, automotive assembly, metal handling, metal stamping, packaging, warehouse, appliance manufacturing

3000 - 3999 grams

MEDIUM/HEAVY CUT HAZARDS:

bottle and light glass handling, canning, dry walling, electrical, carpet installation, HVAC, paper production, automotive assembly, metal handling, metal stamping, packaging, warehouse, appliance manufacturing, meat processing

4000 - 4999 grams

HEAVY CUT HAZARDS:

bottle and light glass handling, canning, dry walling, electrical, carpet installation, HVAC, paper production, automotive assembly, metal handling, metal stamping, packaging, warehouse, appliance manufacturing, meat processing

5000 - 5999 grams

HEAVY CUT HAZARDS:

bottle and light glass handling, canning, dry walling, electrical, carpet installation, HVAC, paper production, automotive assembly, metal handling, metal stamping, packaging, warehouse, appliance manufacturing, meat processing

6000+ grams

TEKTYE™ by RADIANS®

This engineered yarn can get to an ANSI cut level of A4 **WITHOUT THE USE OF FIBERGLASS OR STAINLESS STEEL.**

Provides more comfort and dexterity vs HPPE with Fiberglass or Stainless Steel.

Cost effective option for higher cut levels.

WHY IS THIS IMPORTANT?

When Glass Fiber or Stainless Steel is used in the shell over time those fibers will break. This not only causes possible irritation to the skin in the areas of the break but also in that exact spot of the breakage the glove is no longer an A4 but rather closer to an A2.

CUT PROTECTION GLOVES

WORLD'S MOST ADVANCED CUT RESISTANT FIBER

Dyneema® Diamond Technology offers maximum protection over traditional materials like aramid, leather, nylon and polyethylene with glass fiber.

It can achieve levels B, C and D based on the latest EN388 2016 standard and levels A2, A3 and A4 on the new ANSI/ISEA 105-2016 standard without the use of glass or steel fiber reinforcement, which may break during use causing skin irritation.

GREATER COMFORT & DEXTERITY

Dyneema® Diamond Technology fibers are thinner than generic HMPE fibers and 40% less dense than aramid fibers, making them more comfortable, thinner and cooler to the touch, while still providing advanced cut protection.

It also promotes skin-like dexterity, allowing users to perform delicate and precise tasks efficiently.

CUT PROTECTION SLEEVES

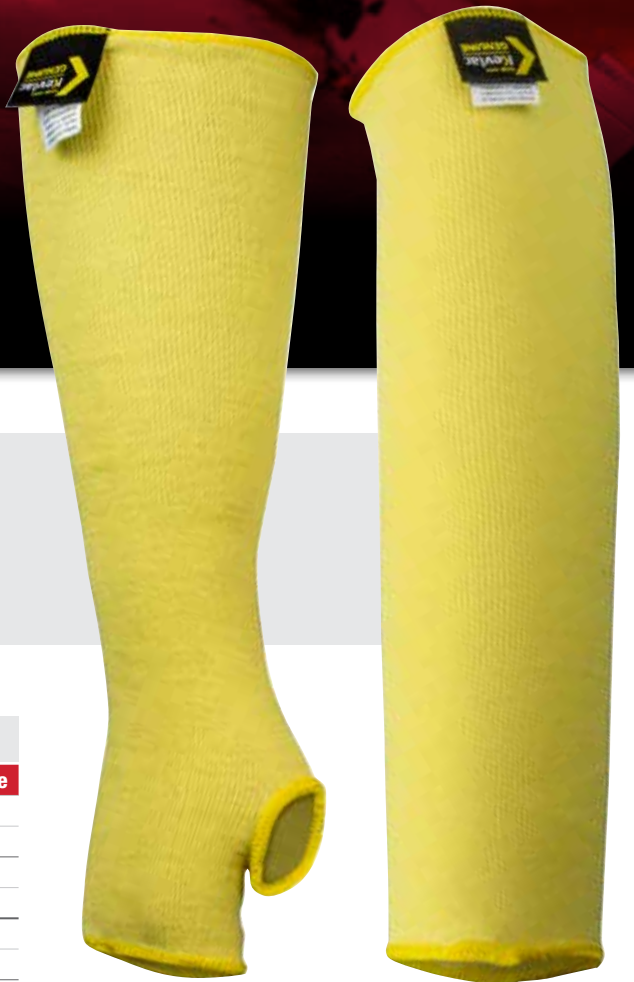

Radians Sleeves with DuPont™ Kevlar®

Cut- and heat-resistant technology protects arms and wrists from cuts, slashes, punctures, and offers light heat resistance too.

Kevlar® is a synthetic, lightweight, heat-resistant fiber that is incredibly strong, delivering a high tensile strength-to-weight ratio. Kevlar® is also inherently flame resistant—its fibers won't melt, drip, or support combustion.

In addition to the excellent cut- and heat-protection benefits of Radians Sleeves, they're lightweight and comfortable too, making them an ideal choice for long wear when both cut and thermal hazards are present at the jobsite. Available in 1-ply and 2-ply.

- **A2 OR A3 CUT PROTECTION**
- **14" OR 18" LENGTH**
- **WITH OR WITHOUT THUMBHOLE**

RAINWEAR TO SUIT YOU

Rainwear is often overlooked in job site assessments because it is not required daily. However, getting caught in thunderstorms or even a steady drizzle can be downright uncomfortable, unsafe, and unproductive for workers.

Radians Industrial Rainwear line offers quality, value, and functionality. We offer economical options in disposable protection, durable protection for hazardous environments, and hi-vis protection for inclement weather. Our line includes waterproof jackets, overalls, full-length coveralls, bibs, coats, and more.

STANDARDS

Radians Industrial Rainwear line is a commitment in uncompromisable protection. We are focused on quality, value, and service while continually addressing functional wearability. Whether your work requires an economical option in disposable protection, durable protection from a hazardous environment, or High Visibility rated protection in inclement weather, we have you covered.

ANSI/ISEA 107 CLASS 3 STANDARDS:

- Background Fabric: 1240 Square Inches
- Reflective Material: 310 Square Inches Minimum
- Reflective Width: 2 Inches

ANSI/ISEA 107 CLASS E STANDARDS:

- Background requirement: 465 sq inches
- Reflective Requirement: 108 sq inches
- Class E Pants, when combined with a Class 2 Garment create a Class 3 Ensemble.

SELF EXTINGUISHING TREATED FABRIC

Synthetic Material Treated to be Self Extinguishing. Self Extinguishing performance determined utilizing ASTM D6413 with criteria of <2.0 second flame out and <6" Char Length. This garment should never be used where risk of Arc Flash or Flash Fire hazards maybe present.

Packable Design

The Need to Be Seen

Outdoor working environments create serious potential dangers and hazards to contend with. Vehicle hazards such as fast moving cars and trucks often speed past, often within inches of workers. Drivers that are distracted, impatient, or impaired often provide a great risk to workers, public safety professionals and recreationists. Noise and focused tasks often make it difficult for workers to hear or notice approaching vehicles and equipment. Work or play when done at night or when light levels are low at dawn, dusk, and during inclement weather provide additional visibility and safety risks.

RAINWEAR

Industrial Protective Wear for Incidental Chemical Splash

Industrial Garments Tested in Accordance to ASTM F903: "Standard Test Method for Resistance of Materials Used in Protective Clothing to Penetration by Liquids"

Neese Chem Shield Garments are made of special materials that are designed for wear and utility for protection and coverage for incidental chemical splash during specific work operations. These industrial protective wear garments offer excellent abrasion and tear resistance, as well as protection from liquid penetration or incidental chemical splash exposures.

FLAME RESISTANT PROTECTIVE WEAR

STANDARDS

ASTM 1506

Requires material testing and garment testing to insure they are constructed from compliant materials. The fabric or fabric system is tested and the incident energy measured in cal/cm² that has a 50% probability of causing second degree burns. It is then assigned an ATPV or EBT value.

INCLUDES VERTICAL FLAME TEST:

- Unwashed fabric
- Home-laundered 25 times
- Char length = 6"
- After flame = 2 seconds

NFPA 2112

Standard on Flame-Resistant Garments for Protection of Industrial Personnel Against Flash Fire specifies the minimum design, performance, certification, and testing requirements for flame-resistant fabric and garments for use in areas at risk from flash fires.

NFPA 70E

Essential for manufacturers and certifying agencies, this standard protects workers from flash fire exposure and injury by specifying performance requirements and test methods for flame-resistant fabric and garments.

INDUSTRY TERMS

- **Flame Resistant (FR)** – A fabric or product that resists ignition and self extinguishes after removal of the ignition source
- **Arc Rated (AR)** – Value describing a fabric's performance under exposure to an electrical arc discharge
- **Flame Retardant** – A chemical treatment applied to a flammable base fabric that gives it FR properties
- **Inherent** – An FR fabric that is made of fibers that are flame resistant due to the chemical structure of the fibers and has not been chemically treated
- **Treated** – An FR fabric in which flame-retardant chemicals are added to the fabric after it has been woven or knitted
- **Self Extinguishing (SE)** – A treated fabric (polyester) that burns if exposed to flame, but won't continue to burn after the source of ignition is removed as defined by ASTM D6413 Standard

PPE REQUIRED FOR HRC1-4

Hazard/Risk Category (HRC)	Minimum Arc Rating (Cal/CM ²)	Arc-Rated Clothing
CAT 1	4 Cal/CM ²	Arc-rated FR shirt and FR pants or FR coverall (1 layer)
CAT 2	8 Cal/CM ²	Arc-rated FR shirt and FR pants or FR coverall (2 layers)
CAT 3	25 Cal/CM ²	Arc-rated FR shirt and FR pants or FR coverall, and arc flash suit selected so that the system arc rating meets the required minimum (2 or 3 layers)
CAT 4	40 Cal/CM ²	Arc-rated FR shirt and FR pants or FR coverall, and arc flash suit selected so that the system arc rating meets the required minimum (3 or more layers)

VolCore FR products proudly use imported fabrics and components that are manufactured into high-quality, price competitive garments. Same price, all sizes, all the time! (Small-6X, Excluding Tall sizes)

The need to be seen is a critical issue for worker safety, especially for workers who perform tasks on or near moving vehicles or equipment.

Wearing high visibility garments draw attention to workers and helps prevent injuries and fatalities from struck-by hazards.

STANDARDS

ANSI/ISEA 107-2020 STANDARD:

Numerous workers in a wide range of applications are exposed to hazards resulting from low light conditions. ANSI/ISEA 107 is the safety standard for design and specification of protective clothing intended to help protect workers from “struck-by” hazards.

TYPE R

Type R HVSA provides high visibility protection for workers who require greater visibility under inclement weather conditions, when backgrounds are complex and when tasks divert attention from traffic.

Background Fabric: 775 Square Inches (540 Sq In - Small Sizes)
Reflective Material: 201 Square Inches Minimum
Reflective Width: 1.37 Inches

Background Fabric: 1240 Square Inches (1000 Sq In - Small Sizes)
Reflective Material: 310 Square Inches Minimum
Reflective Width: 2 Inches

TYPE P

Type P HVSA provides additional options for emergency responders, incident responders and law enforcement who have competing hazards or require access to special equipment.

Background Fabric: 450 Square Inches
Reflective Material: 201 Square Inches Minimum
Reflective Width: 2 Inches

Background Fabric: 775 Square Inches (540 Sq In - Small Sizes)
Reflective Material: 310 Square Inches Minimum
Reflective Width: 2 Inches

TYPE O

Type O is intended to enhance conspicuity for workers in occupational environments which pose struck-by hazards from moving vehicles, but which will not include exposure to traffic on public access highways or roadway temporary traffic control (TTC) zones.

Background Fabric: 217 Square Inches
Reflective Material: 155 Square Inches Minimum
Reflective Width: 1 Inch Split

Yet many women struggle to find properly fitting PPE tailored to their needs. Radians is working to change that by offering a wide range of PPE designed by women to fit women.

DESIGNED BY WOMEN TO FIT WOMEN!

Empowering women on the job with protective apparel that fits properly, providing a safer environment leading to more compliance.

Garments that don't fit properly can be a hazard. Here are some of the design features that make these products different!

- Narrower Shoulders
- Contour Waist & Hip Areas
- Elastic Waist Cinches
- Adjusting Size of Arm Holes

Self Extinguishing Treated Fabric

These garments are made from Polyester. They are treated to be Self Extinguishing as defined by ASTM D6413 (<2.0s flameout / <6" Char Length). They should never be used where an Arc Flash or Flash Fire hazard is present.

Self Extinguishing: will burn if exposed to flame, but will not continue to burn after the source of ignition is removed.

HEARING PROTECTION

PREVENT HEARING LOSS

Approximately 30 million workers in the United States are occupationally exposed to hazardous noises each year. 10 million of those workers suffer from noise-induced hearing loss (NIHL), according to NIOSH.

Hearing Loss Is Permanent, But **100% PREVENTABLE**

According to the World Health Organization, NIHL is the most common, permanent, and preventable occupational injury in the world.

WHAT IS A DB (DECIBEL)?

The unit used to express the intensity of sound.

- Threshold of discomfort is between **85 and 95 dB**
- Threshold for pain is between **120 and 140 dB**

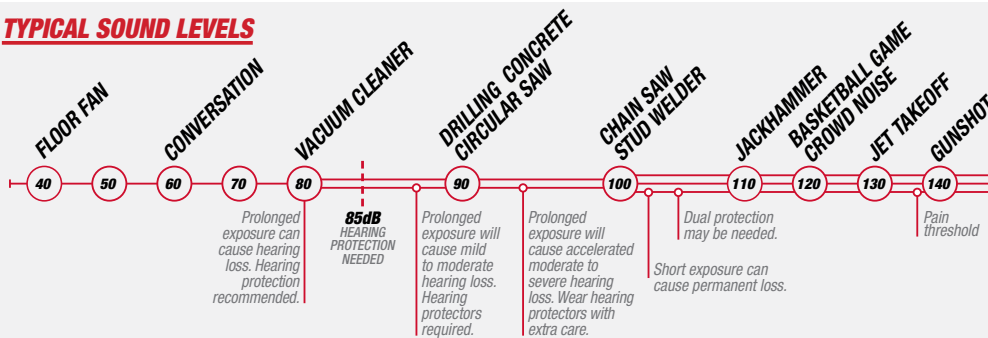

NIOSH recommends that all workers' exposure to noise should be controlled below a level equivalent to 85 dB for eight hours to minimize occupational noise-induced hearing loss.

WHAT IS NRR?

NRR is a single numer rating method describing how much overall noise level is reduced by the HPD.

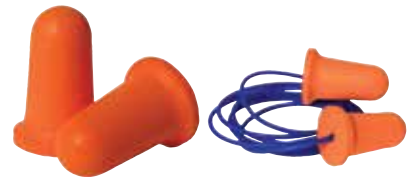

- Labeling requirements are the responsibility of the Environmental Protection Agency (EPA)
- Testing performed per ANSI S3.19:1974

Since the premium eyewear market is a multi-billion dollar market, it's apparent that millions of people have a self-expressive connection with their premium eyewear and place extreme importance on brand recognition. Brand recognition of eyewear goes beyond lifestyle and plays a serious role in the industrial markets because premium brands are a catalyst for compliance.

To meet worker expectation for premium style, all day comfort, and extreme protection, Radians offers affordable premium brands, such as Crossfire and DeWALT.

STANDARDS & TESTING

STANDARD	IMPACT	CALIBER	PROJECTILE
ANSI Z87 + High Velocity	150ft/s 45m/s	0.25" dia. steel ball (25 cal)	
Mil-PRF-31013 V0 Ballistic	640-660 ft/s 195 m/s	0.15" dia. steel projectile (15 cal)	
High Mass Impact	17.6oz/50" hgt 500g/127cm hgt	17.6oz/500g pointed projectile dropped	

- All safety glasses & goggles meet the high impact requirements of ANSI Z87.1 (Z87+).
- Select styles have also been tested for compliance with additional military /international standards including V0 Ballistics (0.15 caliber), CSA Z94.3, EN166, and AS/NZS 1337.
- Eyeglasses are NOT safety glasses unless both the lenses and frame are in compliance with the specifications for safety eyewear described in the ANSI Z87.1 standard.

EMERGENCY EYEWASH TANKS

- Gravity-Fed Tanks can be Wall Mounted, used with a Stand or Placed on a Table/Cart
- One-Step Activation for Instantaneous Flow
- Delivers at least 15 Minutes of Non-Injurious Flow to Meet The ANSI Z358.1 Standard
- Green Color is Easily Recognizable if an Injury Occurs
- Includes an Easy-To-Mount Wall Bracket, Portable Water Preservative, Test Log Card and Drainage Hose

REW01116 16 Gallon Emergency Eyewash Tank

REW01112 12 Gallon Emergency Eyewash Tank

REW01116

16 GALLON EYEWASH TANK

- Red Manifold for Easy Location and Quick Activation

REW01112

12 GALLON EYEWASH TANK

- MIN And MAX Lines on Manifold help ensure Proper Water Level
- Front-Facing Opening to Add Water and Preservative
- Manifold and Base Work Together to Capture Wastewater and Drain Into Disposal Bin or Cart

Eyewash tank, stand and drain cart sold separately

REWSTAND

EYEWASH TANK STAND

- Designed for Radians 16-Gallon & 12-Gallon Eyewash Tanks (*Works with most other 16-gal tanks*)
- Ensures Tank is at ANSI-Required Height
- Easy Installation for Use in Varied Locations
- Simple, Six Bolt Assembly
- Durable Construction
- Open Base for Wastewater Container
- Rubber Feet

REWCART

DRAIN CART

- Plastic Construction with 16-Gallon Capacity
- Small Drain Hose Opening in Top to Collect Water
- Screw-On Cap to Cover Drain Hose Opening when Rolling Cart for Wastewater Disposal
- Drain Cap at Bottom of Cart is Easily Unscrewed for Wastewater Disposal and can Accommodate Standard Water Hose

EMERGENCY EYEWASH STATION ALARM

The optional alarm system adds another level of safety to the emergency eyewash station. When the station is activated, the alarm automatically alerts nearby workers that help is needed with a siren and flashing light. * Batteries NOT Included.

Mounts neatly on top of Radians 16 gallon or 12 gallon Emergency Eyewash Tank.

REWALARM Emergency Eyewash Station Alarm

16oz & 32oz EMERGENCY EYEWASH STATIONS

- Conveniently Mounts to Wall
- Bright Green Color Makes it Easy to Locate in an Emergency
- Each Bottle Snaps Securely into Place
- Bottles Dated for Freshness
- Refills available
- Includes Mounting Screws

REPLACEMENT BOTTLES:
16oz: 01019
32oz: 01024

REW32S
(Single 32oz Bottle)

**These do not meet the ANSI 358.1- 2014 eyewash requirement and should only be used in addition to a proper ANSI rated eyewash unit.*

No one likes to switch back-and-forth between their safety glasses and readers. It's inconvenient, unsafe, and can be downright annoying. Radians offers several safety solutions when it comes to PPE Bifocal eyewear. Our Bifocals are designed with comfort features, such as vented rubber nosepieces and adjustable temples. Several styles are offered including EVA foam-lined frames that protect against dust and debris and sleek, lightweight styles for work and play.

PART NUMBER	DESCRIPTION
DPG64HC	NRR23 Ear muff

CAP MOUNT EARMUFF

DPG66-D

- Adjustable Padded Earcups
- Fits Most Slotted Hard Hats

Cap Mount Interceptor
and Hard Hat.
*Hard hat sold separately

PART NUMBER	DESCRIPTION
DPG66-D	NRR26 Ear muff

DISPOSABLE FOAM EARPLUGS

DPG63/DPG65

- Lightweight Foam
- Comfortable, Versatile Bell Shape
- PVC Dielectric Cord (corded version)

PART NUMBER	DESCRIPTION
DPG63BG50	Uncorded (Resealable bag of 50 pair)
DPG63TC5	Uncorded (Blister pack of 5 pair with carry case)
DPG65TC2	Corded (Blister pack of 2 pair with carry case)

HARD HATS

PROTECTIVE HEADGEAR

- Ratchet Nylon Suspension
- Lightweight High Density Polyethylene
- Moisture Wicking Browband
- Universal Accessory Slots
- Meets ANSI Z89.1-2009 Standard, Type I, Class G & E

Ratchet adjuster allows wearer to easily modify fit while wearing the hard hat.

JOB SITE TOUGH

DEWALT has always had the toughest tools to help you get the job done. DEWALT Work Gloves help get the job done in comfort while providing tough protection for your hands.

Whatever the demand, DEWALT Performance Work Gloves are designed to meet it.

WORK GLOVES

Padded palms protect from rapid vibration stress

TPR absorbs impact to help protect hands

Extended durability and wear life

High level of dexterity for precise control & handling

Protects from cold while maintaining grip

Helps keep hands dry and cool

Fit designed for good tool control

Helps keep hands cool and comfortable

Offers a specified level of cut protection

Protects hands from exposure to moisture

Overlays on the palm improve grip and durability

Padding absorbs vibrations reducing hand stress

HI-VIS HPPE CUT TOUCHSCREEN

DPG833

Sizes: S - XL

- 18 Ga Hi-Vis HPPE Shell
- Micro Foam Nitrile Palm

INSULATION

EXTREME CONDITION INSULATED

DPG750

Sizes: M - XXL

- Wind & Waterproof Quad Layer
- 100g Micro Fleece Liner
- Extended Gauntlet Cuff
- Water and Oil Resistant PVC Palm Overlay
- PU Coated Polyester Shell
- Neoprene Knuckle Guard

HIGH VISIBILITY STANDARDS

ANSI/ISEA 107-2020 STANDARD:

The American National Standard for High-Visibility Safety Apparel is a standard established by American National Standards Institute, Inc (ANSI) and the International Safety Equipment Association (ISEA). Numerous workers, including construction, utility, police, emergency medical services, fire fighters, road workers, flaggers, and airport ramp workers are routinely exposed to the hazards of low visibility while on the job. This standard provides guidelines for the selection and use of high-visibility safety vests to improve worker visibility during the day, in low-light conditions and at night.

ANSI/ISEA 107-2020 Type R, Class 2:

Type R HVSA provides high visibility protection for workers who require greater visibility under inclement weather conditions, when backgrounds are complex and when tasks divert attention from traffic.
 Background Fabric: 775 Square Inches (540 Sq In - Small Sizes)
 Reflective Material: 201 Square Inches Minimum
 Reflective Width: 1.37 Inches

ASTM F1506 Inherently Flame Retardant Material:

ASTM F1506 uses vertical flame test ASTM D6413 to determine flammability.

- Fabric must self extinguish in less than 2 seconds after flame has been removed.
- Char length must be less than 6 inches.
- No melting or dripping can be observed.

ANSI/ISEA 107-2020 Type R, Class 3:

Type R HVSA provides high visibility protection for workers who require greater visibility under inclement weather conditions, when backgrounds are complex and when tasks divert attention from traffic.
 Background Fabric: 1240 Square Inches (1000 Sq In - Small Sizes)
 Reflective Material: 310 Square Inches Minimum
 Reflective Width: 2 Inches

Standard Performance Specification for:

Apparel for use by Electrical Workers exposed to momentary electric arc and related thermal hazards.

ASTM F1506 was developed for fabric intended for NFPA 70E standards and applications requiring arc rating greater than 4.0 cal.

NFPA 70E Hazard Risk Category Levels:

CAT level is determined by the minimum amount of calories per square centimeter (ATPV or Cal/cm²) a treated garment must pass through with a 50% probability of a 2nd or 3rd degree burn occurring, thus the protective level of the treated clothing. The higher the ATPV, the higher the CAT level attained, the greater the protection.

Hazard Risk Category	Common FR clothing at this level	Min ATPV(Cal/cm ²)
CAT 1	FR shirt and FR pants; or FR coveralls; Single base layer of FR protection	4
CAT 2	FR under garments (undershirt, underwear), FR shirt, and FR pants; FR under garments, FR coveralls; 2 or more layers of FR protection	8

ECONOMY MESH

DSV220

TYPE CLASS
R 2
ANSI 107-2020

Part Number: DSV220-(size)
Sizes: M - 5X

- Zipper closure
- Single mic tab at right shoulder
- 2" Sewn on reflective tape
- Single horizontal and two vertical stripes
- Left side inner chest pocket
- Durable stitch reinforcement at major stress points

CONTRASTING TRIM MESH

DSV221

TYPE CLASS
R 2
ANSI 107-2020

Part Number: DSV221-(size)
Sizes: M - 5X

- Zipper closure
- Single mic tab at right shoulder
- 2" Sewn on reflective tape
- 3" Contrasting black trim detail
- Single horizontal and two vertical stripes
- Left side inner chest pocket
- Durable stitch reinforcement at major stress points

ADJUSTABLE BREAKAWAY

DSV421

TYPE CLASS
R 2
ANSI 107-2020

Part Number: DSV421-(size)
Sizes: S/L - XL/3X - 4X/6X

- Patented zip-n-rip™ front closure
- Drop shoulder 5 point breakaway system
- Dual mic tabs at shoulders
- 2" Premium reflective tape with 3" contrasting black trim detail
- Left side inner chest pocket
- Durable stitch reinforcement at major stress points

HEAVY-DUTY SURVEYOR

DSV521

TYPE CLASS
R 2
ANSI 107-2020

Part Number: DSV521-(size)
Sizes: M - 5X

- Zipper closure
- Dual mic tabs at shoulders
- 8 Pockets
- Rear D-ring pass through
- Tether & flagging tape grommets
- 1" Heavy webbing reinforcement
- Durable stitch reinforcement at major stress points

FR T-SHIRTS

DST911/DST921

SS Part Number: DST911-(size)
LS Part Number: DST921-(size)
Sizes: M - 5X

- Jersey knit modacrylic cotton poly blend
- Garment background & reflective material certified to ANSI 107-2015
- Retro reflective material certified to Ansi 107-2020 level 2
- Arc rating 10.0 Cal/cm2

FR MESH VEST

DSV971

TYPE CLASS
R 2
ANSI 107-2020

Part Number: DSV971-(size)
Sizes: M - 5X

- Zipper closure
- Dual mic tabs at shoulder
- Pockets: 1 left chest, 1 lower right
- Rear D-ring pass through
- Garment background & reflective material certified to ANSI 107-2015
- Retro reflective material certified to Ansi 107-2020 level 2
- Arc rating 5.1 Cal/cm2

PACKABLE RIPSTOP RAINCOAT

DRW11

TYPE CLASS
O 1
ANSI 107-2020

Part Number: DRW11-1ZGR-(size)
Sizes: S - 3X

- Segmented lightweight retroreflective tape
- Zipper front closure with hook & loop closure storm flap, one bottom snap, adjustable hem with toggle
- Hook/loop wrist adjustment tabs
- Lined with lightweight mesh
- Compact packable design
- Vented underarm zippers
- 2 Front pockets

HEAVYWEIGHT FLEECE SWEATSHIRT

DSJ32

TYPE CLASS
R 3
ANSI 107-2020

Part Number: DSJ32-3ZGS-(size)
Sizes: M - 5X

- 7.5" Long vertical cell phone pocket and pouch pockets with outer zipper pocket layer
- Detachable hood with snaps and draw cord
- 2" Wide segmented heat transfer tape
- Black brushed tricot lined body, taffeta lined sleeves for easy on/off
- Adjustable bungee hem
- Black colorblocking
- Banded cuffs

TOUGH ON COLD

DEWALT Heated Gear, powered by the DEWALT® 20V MAX* XR 2.0 Ah battery, provides hours of warmth and comfort in cold temperatures. The carbon fiber heating system delivers up to nine hours of core body warmth and continuous heat**. Designed and constructed to be GUARANTEED TOUGH® for the rugged and tireless worker.

**Battery pocket accepts 20V MAX* XR lithium-ion batteries which improves run time by up to 25%. (At maximum initial battery voltage, as compared to 1.5 Ah DCB201). Up to 5.5 Hours of runtime on low setting using the 20V MAX* compact 1.5 Ah battery

HEATED JACKETS

SOFT SHELL

DCHJ060A

Part Number: DCHJ060AB(kit)-(size)

Sizes: S - 3X

- Insulated woven outer shell
- Warm fleece polyester lining
- Adjustable cuffs and waist
- Multiple pockets including phone pocket
- Front zipper with internal wind guard
- Low funnel neck with chin guard
- Complete Kit (D1) includes: Jacket, Battery, Charger and USB Power Adapter
- Bare Kit (B) includes: USB Power Adapter only

HEAVY-DUTY DUCK

DCHJ076A

Part Number: DCHJ076A(color)(kit)-(size)

Sizes: S - 3X Colors: Black (B), Tobacco (T)

- Durable heavy-duty duck fabric outer shell
- Warm fleece polyester lining
- Gusseted underarms and stretch back for full range of movement
- Multiple pockets including fleece lined riveted front pouch pockets
- Complete Kit (D1) includes: Jacket, Battery, Charger and USB Power Adapter
- Bare Kit (B) includes: USB Power Adapter only

STRUCTURED SOFT SHELL

DCHJ090B

Part Number: DCHJ090B-(kit)-(size)

Sizes: S - 3X

- Multiple pockets including cell phone and sleeve pockets
- Toggle pull adjustable waist
- Waterproof zippers
- Full coverage drop tail hem

QUILTED SOFT SHELL

DCHJ075

Part Number: DCHJ075(kit)-(size)

Sizes: S - 3X

- Durable water and wind resistant polyester outer shell
- Quilted, insulated warmth without weight
- Reflective piping for increased visibility
- Multiple pockets including phone pocket
- Complete Kit (D1) includes: Jacket, Battery, Charger and USB Power Adapter
- Bare Kit (B) includes: USB Power Adapter only

MEN'S HEAVY-DUTY RIPSTOP

DCHJ091

Part Number: DCHJ091(kit)-(size)

Sizes: S - 3X

- Parka length with adjustable hood
- Ripstop outer, Sherpa lining and taffeta lined sleeves
- Adjustable hook/loop tab sleeve cuffs
- Pockets with snap closure flaps, zippers and waterproof zippers
- Gusseted underarm for ease of arm movement
- Complete Kit (D1) includes: Battery, Charger and USB Power Adapter
- Bare Kit (B) includes: USB Power Adapter only

LIGHTWEIGHT SOFT SHELL

DCHJ072

Part Number: DCHJ072(kit)-(size)

Sizes: S - 3X

- Durable water and wind resistant polyester outer shell
- Reflective piping and zipper for increased visibility
- 5 pockets including cell phone pocket
- Adjustable cuffs and waistline
- Complete Kit (D1) includes: Jacket, Battery, Charger and USB Power Adapter
- Bare Kit (B) includes: USB Power Adapter only

BARN COAT

DCHJ083T

Part Number: DCHJ083TD1-(size)

Sizes: S - 3X Colors: Tobacco (T)

- Warm flannel lining
- Black corduroy collar
- Zipper front with Snap wind guard
- Multiple pockets, including pencil/pen pocket and phone pocket
- Complete Kit (D1) includes: Jacket, Battery, Charger and USB Power Adapter

REVERSIBLE FLEECE VEST

DCHV086B

Part Number: DCHV086BD1-(size)

Sizes: S - 3X

- Reversible polyester fleece to Sherpa fleece
- Extended collar for extra coverage
- 8 pockets for convenient storage include chest pockets and zipper pockets
- Drop tail hem for full coverage
- Complete Kit (D1) includes: Jacket, Battery, Charger and USB Power Adapter

20V MAX*: Maximum initial battery voltage (measured without a workload) is 20 volts. Nominal voltage is 18 volts.

REALTREE XTRA® CAMO VEST

DCHV085

Part Number: DCHV085D1-(size)

Sizes: S - 3X

- Realtree XTRA® Camouflage polyester fleece outer shell and soft polyester black fleece inner shell are noise free
- Durable, insulated and wind resistant material
- Heavy duty nylon zipper with internal wind guard
- 8 Pockets including 4 large flannel lined pockets
- Complete Kit (D1) includes: Jacket, Battery, Charger and USB Power Adapter

RealTree marks and logos are trademarks of Jordan Outdoor Enterprises, Ltd.

REALTREE XTRA® CAMO HOODIE

DCHJ074

Part Number: DCHJ074D1-(size)

Sizes: S - 3X

- Heavyweight & durable wind resistant Realtree Xtra® camouflage cotton/polyester blend fleece outer shell
- Warm thermal waffle knit fleece cotton/polyester lined torso and hood
- Rib knit cuffs and waistband
- Multiple pockets including 2 large fleece pockets
- Complete Kit (D1) includes: Jacket, Battery, Charger and USB Power Adapter

RealTree marks and logos are trademarks of Jordan Outdoor Enterprises, Ltd.

WOMEN'S HOODED

DCHJ066

Part Number: DCHJ066C1-(size)

Sizes: XS - 2X

- Soft water and wind resistant polyester blend outer shell
- Removable, adjustable hood
- Zipper wind guard
- Multiple pockets, including chest cell phone pocket
- Complete Kit (C1) includes: Battery, Charger and USB Power Adapter

MEN'S FLEECE HOODIE

DCHJ067

Part Number: DCHJ067B-(size)

Sizes: S - 3X

- Durable wind resistant cotton, polyester outer shell
- Waffle knit lining
- Built-in hood with adjustable drawstrings
- 3 total pockets: L&R waist, Inside Left Chest
- Bare Kit (B) includes: USB Power Adapter only

WOMEN'S HEAVY-DUTY RIPSTOP

DCHJ092

Part Number: DCHJ092D1-(size)

Sizes: XS - 2X

- Bomber style with adjustable hood
- Ripstop outer, Sherpa lining and taffeta lined sleeves
- Rib knit sleeves and waistband help block cold
- Multiple pockets including 2 hand warmer pockets with sherpa trim
- Zipper front with snap storm flap
- Complete Kit (D1) includes: Battery, Charger and USB Power Adapter

MEN'S FRENCH TERRY HOODIE

DCHJ080

Part Number: DCHJ080B-(size)

Sizes: S - 3X

- Durable french terry cotton/polyester heathered grey outer shell
- Warm thermal waffle knit fleece polyester lined torso and hood
- Rib knit cuffs and waistband
- Multiple pockets including phone pocket
- Bare Kit (B) includes: USB Power Adapter only

WOMEN'S QUILTED

DCHJ084

Part Number: DCHJ084CD1-(size)

Sizes: S - 2X

- Durable diamond quilted polyester outer shell
- Flannel lined body with hideaway hood
- Contoured seaming and extended shirt tail
- Gusseted underarms
- Snap cinch back for adjustable fit waist
- Spandex storm cuffs with thumb holes
- 8 pockets
- Complete Kit (D1) includes: Battery, Charger and USB Power Adapter

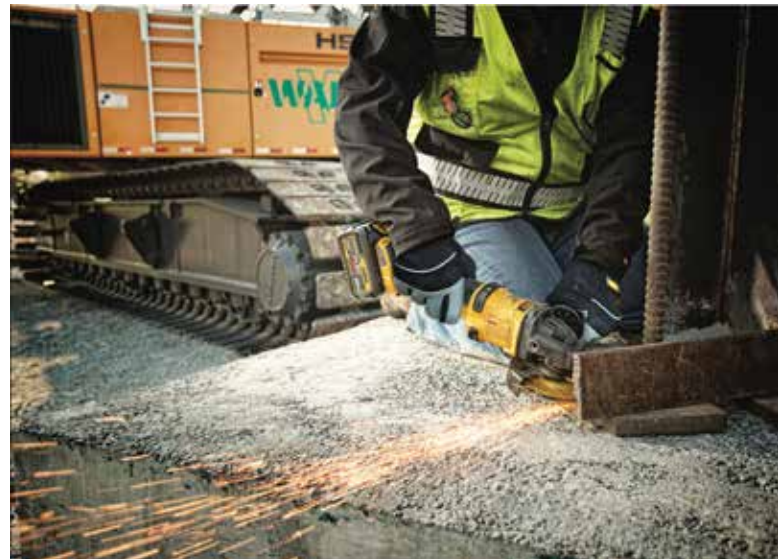

20V MAX*: Maximum initial battery voltage (measured without a workload) is 20 volts. Nominal voltage is 18 volts.
