 **PILOT**
POWER TO THE PEN!

Pilot Corporation of America was established in the United States in 1972, and is recognized as a premier manufacturer of quality writing instruments.

Our parent company, Pilot Corporation, is the oldest and largest writing instrument manufacturer in Asia. It is headquartered in Tokyo, Japan, where it was founded in 1918. Pilot's ongoing growth has been driven by the consistent development of highly innovative products that deliver unsurpassed quality and an exceptional writing experience.

Pilot's diverse line of pens has been created in a culture that has revered the art of writing for over a thousand years. Namiki, our luxury line of pens, are handmade works of art that are recognized globally for their beauty, craftsmanship and excellent writing capabilities.

This heritage of art, design and quality can be seen throughout Pilot's entire range of product offerings, in our everyday pens — G2, FriXion, Precise, Acroball and Dr. Grip, in our artful writing tools including Ensō Brush Pens and Parallel Pens and also Axiom and Explorer.

Pilot's spirit of innovation has always focused on serving consumers' unmet writing needs and on making writing a pleasure with exceptionally designed, smooth-writing pens.

In a digital age where we have gained immediacy but lost intimacy, Pilot helps you express yourself effortlessly and connect through the written word.

We Believe in the
POWER OF THE
WRITTEN WORD.

We Believe in the
POWER OF THE PEN.

OUR PILOT PENEFFESTO

WRITE IT. MARK IT. DRAW IT. DESIGN IT.

We are the point behind creativity.

THE SILENT PARTNER IN SELF-EXPRESSION.

Our purpose is to help doers do.

DO SHARPER. DO FINER. DO BOLDER.
DO LONGER. DO SMOOTHER. DO BETTER.

We keep a firm grip on innovation.

A COMMITMENT AS VISIBLE AS OUR COUNTLESS COLORS.
AND AS LONG-LASTING AS OUR G2 GEL INK.

No wonder we're
preferred by so many.

We create the instruments that help ideas sing.

That's Power To The Pen.

THAT'S PILOT.

At Pilot we are pen enthusiasts, we are passionate about our products.

Our Peneffesto brings to life how our writing instruments are designed to delight. Whether you are an overachiever, a pen enthusiast or a comfort-seeker, we have the pens to help you make your mark.

Sustainability

Pilot has long been an advocate of using recycled content in our packaging and products. Since 2007, Pilot has been producing premium pens with recycled content. In fact, our B2P (Bottle 2 Pen) line of products is the world's first line of pens to be made from recycled bottles. For 2022, we have redesigned our FriXion Light, Acroball, Marklighter2 and Precise Varsity packaging to clearly show the recycled content information on the front of the pack. In addition, many of our most popular pen brands are refillable for continued use. Of our shipped products, 75% use recycled content in packaging and/or the product. Through sensible planning and smart supply strategies, we are working to build our plans for a more sustainable future.

FriXion is a Must-Have Learning Tool.

"We are very excited to announce that FriXion is the 1st and Only STEM Pen."

FriXion delivers smooth, mistake-free writing powered by its unique, thermo-sensitive ink formula.

The science behind FriXion erasable pens embodies STEM principles & exciting K-12 hands-on demonstrations.

FriXion is an affordable, easily accessible way to put the power of STEM in your hands.

FriXion is the 1st & only pen to be Authenticated™ by STEM.org.*

Go to FriXionSTEM.com for more information.

*STEM.org is the longest continually operating, privately held STEM education, research and credentialing organization in America. Learn more at STEM.org.

Parallel Pen[®]

Calligraphy Pen

- Breakthrough nib design features two parallel plates that create distinct, beautiful lines
- Parallel Pens come in six nib widths, each packaged separately: 1.5mm, the #1 selling 2.4mm, 3.0mm, 3.8mm, 4.5mm and 6.0mm
- Mixable inks create remarkable color effects by blending the ink of two pen nibs
- Each pen comes with two cartridges, a pipette, nib cleaner and instruction booklet
- Boxed with hang tab for easy planogram display

Refills available P. 138.

V BOARD MASTER BEGREEN

TPF SYSTEM: The **TWIN PIPE FEED SYSTEM** utilizes two pipes and a pad to ensure a stable supply of ink to the pen tip. One of these two pipes feeds the ink to the pad section and the other pipe feeds air to the ink tank. The pad functions the same as a pen tip and controls the supply of ink to the tip.

3 Packs	6	24 packs of 6

*Note: Erasable pens are not recommended for use on legal or official documents. Do not expose to extreme temperatures (<14°F; >140°F). If pen is exposed to temperature that reaches 140°F, the ink will be colorless when writing. To restore color, cool to at least 14°F in freezer and the ink will again write in color.

- Unique, thermo-sensitive ink formula disappears with erasing friction¹
- For use in FriXion Ball, FriXion Clicker and FriXion LX. FriXion 3 Colors refills are only available in an assorted 9pk
